Dolly

Design by Stefano Gallizioli

Dolly Chat is a comfortable solution for common areas and open-floor offices, suitable for interaction and sharing, but also for moments of relaxation. The set consists of two 130 cm high upholstered sofas connected by a technical panel, and can be accessorized with monitor and extendable table with wiring. Its enveloping shape, special canopy and sound-absorbing fabrics guarantee acoustic insulation up to 15 dB. The 2-4 seater Dolly Chat version which also includes a wired extendable table, is ideal for small-size meetings.
Thanks to its 127 cm high backrest, Dolly Chat can segregate acoustically protected informal meeting spaces. Its simple and contemporary lines enhanced by metal feet yield a welcoming decor suitable for relaxing moments.

TECHNICAL FEATURES

Structure

Backrest, armrests and technical panel are in coldpressed foam with metallic insert. Seats with structure in solid Fir and poplar plywood supports the system of elastic spring bands.

Padding

Padding in differentiated density polyurethane foam.
